Family Dispute Resolution

Resolving issues through mediation reduces the conflict that families experience. It also helps separating or separated parents to focus on the best interests of their children.

Dispute resolution provides mediation for separated or separating parents to reach agreement on parenting plans.

Family Services

We aid families who are experiencing multiple difficulties such as parenting challenges, family violence and mental health issues.

Our in-home support and parenting skill development services can improve the wellbeing of families experiencing these challenges.

Parenting Orders Program

Separation or divorce can affect all members of the family, so tailored support and education can help families work together and find solutions in the best interests of the children.

This service provides a mix of individual counselling and group education programs, focusing on the needs of children.

Settlement Engagement and Transition Support (SETS)

SETS equips and empower refugees and other vulnerable migrants to address their settlement needs. We can provide one-on-one support, counselling, advocacy and informative group programs for refugees.

Workshops

Pre-marriage courses are available to help couples build stronger relationships as they prepare for marriage.
