About the Portfolio

The Manager, Family Services is responsible for the activities of:

- Family Services
 - Integrated Family Services
 - Kinship Care

Family Services promotes the safety, stability and development of vulnerable children, young people and their families, with a focus on building capacity and resilience.

The program supports vulnerable young people and their families:

- where there are greater challenges experienced as a result of environmental factors impacting family functioning, and/or
- where the child/young person's development has been affected by the experience of risk factors and/or cumulative harm, and/or
- are at risk of concerns escalating and becoming involved with Child Protection.

Services aim to protect children and young people and improve family functioning via:

- a strengths-based approach, including a comprehensive needs and risk assessment
- identification of pathways and key transition points that focus on earlier intervention, prevention and diversion
- capacity to provide intensive, multidisciplinary responses
- authorisation to consult with or make reports to Child Protection when a child is believed to be in need of protection.

These services are delivered in partnership with the Department of Families, Fairness and Housing (DFFH), The Orange Door (TOD) and local child and family service alliances and networks.

CatholicCare Victoria reserves the right to advertise positions and make no appointment.

Kinship Care is the care provided by relatives or a member of a child's social network when a child cannot live with their parents. Aboriginal kinship care is care provided by relatives or friends to an Aboriginal child who cannot live with their parents, where Aboriginal family and community and Aboriginal culture are valued as central to the child's safety, stability and development. Statutory kinship placements occur when a Child protection intervention has occurred, and a decision has been made to place a child with relatives or a significant friend and may also involve an order made by the Children's Court.

The kinship care service model identifies kinship networks; promotes placement quality and supports children and young people living in kinship care; promotes placement stability; strengthens reunification where appropriate; builds community connections for Aboriginal children in kinship care; and delivers flexible support.
